

Initial Consultation Report from Tara Patregnani Professional Genealogist

Summary of Research Recommendations:

The purpose of this report is to summarize the data and goals for your project. Please review the information in this report carefully and report if any additional information is known at project start or if any of the information should be changed or corrected.

At project start you reported you have been unable to find a copy of an original birth certificate for your grandfather John Joseph Petrucci after submitting requests to Vital Records in Barrington, RI and the City of Boston. It is believed that John Joseph Petrucci was born on the 31st of March 1920 in either Barrington, Rhode Island or Hyde Park, Massachusetts.

I recommend applying up to one hour of research time completing a digital collections survey to search for evidence that may point to another place of origin for John Joseph Petrucci. If one or more places are identified specific instructions will be provided for you to submit a request or request to obtain a certified copy of an original birth certificate for John Joseph Petrucci.

Digital Collections Survey is a term we use to describe a research survey that exhausts all available collections of documents that are published online including but not limited to Ancestry.com and other premium information service databases. Copies of original documentation may include census, vital, military, probate, land and church records; secondary documentation may include copies of record transcriptions, record index entries and published genealogies.

Itemized List of Research Recommendations:

Digital Collections Survey, Up to 1 hour research time

- Research survey to search for evidence that may point to another place of origin for John Joseph Petrucci. If one or more places are identified specific instructions will be provided for you to submit a request or request to obtain a certified copy of an original birth certificate for John Joseph Petrucci. Genealogist will search all available collections of documents that are published online including but not limited to Ancestry.com premium databases. Copies of original documentation may include census, vital, military, probate, land and church records; secondary documentation may include copies of record transcriptions, record index entries and published genealogies.
