

Research Results Report

Tara A. Fantauzzi, Professional Genealogist

Summary of Research Results:

A half hour of correspondence time was applied submitting a request to the New York City Municipal Archives to obtain a copy of an original marriage record for Edward T. Brererton and Elizabeth Morrissey. A copy of their original marriage record was received and analyzed before the research survey was completed. Next, one hour and forty-five minutes of research time was applied completing a digital collections survey to learn more about the identity of Edward T. Brereton with a focus to identify new ancestors and learn more about their identities beginning with his parents Edward Brereton and Margaret O'Rourke.

The research survey and correspondence work yielded seven positive results; specifically, a combination of U.S. census, vital, and military records as well as record index entries related to the identities of Edward T. Brereton and his parents Edward Brerton and Margaret O'Rourke. Genealogist noted the naturalization index entry submitted by client at project start may be inaccurate because during this phase an 1865 New York State census found on Edward Brerton reported he was already a citizen by July 1865. The naturalization index entry submitted by client reported that Edward Brereton became a naturalized citizen during October 1865.

Every document that was obtained through research was analyzed and a summary of your research results can be found below. Images of all the records can be downloaded from your *Customer Dashboard* at www.capitalgenealogy.com/carolyn-hodge.

Summary of Research Recommendations:

Genealogist recommends applying up to a half hour of correspondence time requesting copies of original death records for Edward Brereton from 1897 and Margaret Brereton from 1919. The fee per record will be \$18.50.

Correspondence Time is a term we use to describe research tasks that involve direct contacts with government agencies, historical societies, or other entities to submit requests for documents; often including the completion of formal request forms, emails, or mail correspondence. Correspondence tasks are billed at half our normal research rate.

Genealogist recommends applying up to fifteen minutes of correspondence time requesting a copy of the original pension file for Edward T. Brereton. To obtain the full pension file the record copy fee will be \$80, or client has an option to request a return of only the most genealogically relevant documentation from the pension file for a record copy fee of \$30.

After the correspondences are received and analyzed genealogist recommends applying up to one hour of research time completing a digital collections survey on the identities of Edward Brereton and Margaret O'Rourke to further prove their identities with an emphasis to establish and prove their specific places of Irish origin.

Digital Collections Survey is a term we use to describe a research survey that exhausts all available collections of documents that are published online including but not limited to Ancestry.com and other premium information service databases. Copies of original documentation may include census, vital, military, probate, land and church records; secondary documentation may include copies of record transcriptions, record index entries and published genealogies.

Itemized List of Research Recommendations

1A. Correspondence, Up to .5-hours correspondence time + up to \$37 record copy fees

- To submit requests to the New York City Municipal Archives to obtain copies of original death records for Edward Brereton and Margaret Brereton

1B. Correspondence, Up to .5-hours correspondence time + TBD record copy fees

- To submit a request to the National Archives and Records Administration to obtain either a full copy or abbreviated copy of an original pension record for Edward Brereton

2. Digital Collections Survey, Up to 1 hour research time

- Research survey on the identities of Edward Brereton and Margaret O'Rourke as well as their direct ancestors with an emphasis to establish and prove their specific places of Irish origin that will search all available collections of documents that are published online including but not limited to Ancestry.com premium databases. Copies of original documentation may include census, vital, military, probate, land and church records; secondary documentation may include copies of record transcriptions, record index entries and published genealogies.
