

Initial Consultation Report Tara A. Fantauzzi, Professional Genealogist

The purpose of this report is to summarize the data and goals for your project. Please review the information in this report carefully and report if any additional information is known at project start or if any of the information should be changed or corrected.

Summary of Research Recommendations:

Client expressed an interest in learning more about the identity, siblings and direct ancestors of Anthony Pasquale Murray [DiPasquale] with an emphasis to determine his specific place of origin as well as the identities of the siblings to Giuseppe 'Joseph' Glorioso born in Geraci, Siculo, Palermo, Sicilia, Italy. The goals of the survey will be to verify and prove what is known at project start and to establish and prove the identities of previously unknown direct ancestors.

Client provided genealogist with access to her sources at project start which included a family tree and original documents before any research time has been applied. Genealogist also reviewed the research results completed by Capital Genealogy dated 9-28-2018 because those findings included sources on the Murray [DiPasquale] and Glorioso lineages. It is important to note that because the specific place of origin has been confirmed for the Glorioso and Scancarello lineages research recommendations can be proposed to learn more about the identities of the direct ancestors to Giuseppe 'Joseph' Glorioso and Giuseppe 'Josephine' Scancarello.

Genealogist analyzed sources and created an inventory of the most genealogically relevant documents below. The information from the documents was interpreted and used to create the pedigree chart at the end of this report.
